Dipartimento di Ingegneria Strutturale e Geotecnica
E-mail: francesco.dellisola@uniroma1.it

Dear Prof. Francesco dell'Isola,

The Journal of Samara State Technical University, Ser. Physical and Mathematical Sciences (ISSN: 2310-7081 (online), 1991-8615 (print)) is a well-known Russian journal published by Samara State Technical University since 1996.

The research articles, reviews and letters published in the Journal are devoted to the following topics: Differential Equations and Mathematical Physics, Solid Mechanics, Mathematical Modeling, Numerical Methods and Software Systems. The journal articles are indexed in Web of Science Core Collection (Emerging Sources Citation Index) (since 2015); Russian Science Citation Index on the WoS platform (since 2008); Zentralblatt MATH (since 2012); Directory of Open Access Journals (added to DOAJ on 3 Jan 2018); MathNet.RU (full coverage); eLibrary-RSCI (full coverage); CyberLeninka.ru (full coverage); Scholar.Google.com (full coverage); VINITI-Russian Academy of Science, and accepted for indexing in Scopus (since 2019).

Taking into account your outstanding contribution to Mechanics, I would like to invite you to become the Editorial Board Member of the Journal.

As the Editorial Board Member, you may be required to occasionally review papers, invite your colleagues and friends to submit papers to the journal and help to promote the Journal.

We are keenly looking forward to receiving your positive response.

With best wishes,

Prof. Vladimir P. Radchenko,
Editor-in-Chief of the Journal
of Samara State Technical University,
Ser. Phys. Math. Sciences

Aims and Scope of our Journal

1. For a long time, the Journal was an edition where the new scientific results of Russian scientific schools had been published. Now the Journal is focused on both Russian and foreign scientists, working in the priority research areas of Samara State Technical University because the main purpose of the journal is an open dissemination of scientific knowledge among Russian and foreign scientists.
2. The papers and reviews published in the Journal are devoted to the following topics: “Differential Equations and Mathematical Physics”, “Mechanics of Deformable Solids”, “Mathematical Modeling, Numerical Methods and Software Systems”.
3. The Journal pays special attention to the following tasks:
 - attraction of highly qualified authors, editors and reviewers to the Journal;
 - ensuring a high scientific level of reviewing all incoming manuscripts;
 - compliance with COPE standards.
4. The target audience of the journal is the scientists working in the following topics: “Differential Equations and Mathematical Physics”, “Mechanics of Deformable Solids”, “Mathematical Modeling, Numerical Methods and Software Systems”.
